FRANCEGO VIP TRANSFERS & TOURS

B2B Partner API Integration Guide

Official developer specification for travel agencies, OTAs, booking portals, luxury hotels, and concierge desks to transmit transfer bookings and poll live reservation status.

API VERSION 1.2 | ENTERPRISE GATEWAY | JSON REST SPECIFICATION

Production Host: https://francegotransfers.io

API Base Path: `/api/v1/partner`

Authentication Method: Secret API Key (`X-API-Key` or Bearer Header)

Partner Support Hotline & WhatsApp: +33 7 81 11 83 94 | projet15df@outlook.fr

Publication Date: October 2026

1. Overview & Authentication

The **FranceGo B2B Partner API** provides an enterprise-grade channel connecting travel agencies, booking platforms, and hospitality portals directly into the FranceGo dispatch ecosystem. Reservations booked via the Partner API automatically:

- Populate the 24/7 Operations Back-Office Suite (`/ffs-portal-sec-99x/bookings`) with zero manual data entry.
- Calculate dynamic route pricing directly from our database according to your negotiated fleet tiers.
- Trigger instant HTML email confirmation vouchers to passengers and dispatch alerts to the chauffeur team.
- Support live status polling and lifecycle tracking (`PENDING` , `CONFIRMED` , `DISPATCHED` , `COMPLETED` , `CANCELLED`).

> **AUTHENTICATION HEADER**
>
> Every incoming request to the B2B Partner API MUST include your secret API key. We validate keys using constant-time cryptographic comparisons (`crypto.timingSafeEqual`) to prevent timing attacks.
>
> **Header Format:**
> `X-API-Key: your_b2b_secret_partner_key_2026`
> *(Alternatively: `Authorization: Bearer your_b2b_secret_partner_key_2026`)*

Standard HTTP Status Codes

Status Code	Reason	Description
`200 OK`	Success	Request executed successfully. Returned data is structured in JSON.
`201 Created`	Resource Created	The transfer booking was validated, stored in database, and scheduled.
`400 Bad Request`	Validation Error	Missing required fields (e.g. invalid date, unknown location code).
`401 Unauthorized`	Access Denied	Missing, malformed, or invalid `X-API-Key` header.
`404 Not Found`	Not Found	The requested route or booking reference does not exist in the database.
`500 Server Error`	Internal Error	Server exception. Please reach out to the 24/7 dispatch desk.

Supported Location Codes

Short Code	Hub Name	Category	Primary Use Case
`CDG`	Paris Charles de Gaulle Airport	AIRPORT	Terminals 1, 2A-2G, 3 (Flight Meet & Greet)
`ORY`	Paris Orly Airport	AIRPORT	Terminals 1, 2, 3, 4
`BVA`	Paris Beauvais Tillé Airport	AIRPORT	Low-cost European flights (Ryanair, Wizz Air)
`DLP`	Disneyland Paris Hotels & Parks	AMUSEMENT_PARK	All Disney hotels, Newport Bay, Cheyenne, Santa Fe
`PAR`	Paris City Center	CITY_CENTER	All 20 Paris arrondissements (Hotels & Apartments)
`GDN`	Gare du Nord & Paris Train Stations	TRAIN_STATION	Eurostar, Thalys, Gare de Lyon, Montparnasse
`VERS`	Château de Versailles & Hotels	PALACE	Palace of Versailles, Trianon, Waldorf Astoria
`AST`	Parc Astérix Resort & Theme Park	AMUSEMENT_PARK	Plailly theme park excursions
`GIV`	Fondation Claude Monet Giverny	PALACE	Giverny Gardens & Normandy excursions
`FON`	Château de Fontainebleau & Barbizon	PALACE	Imperial Palace day tours
`CHA`	Champagne Region & Reims	PALACE	Reims Cathedral & Champagne House tours
`NOR`	Normandy D-Day Beaches & Caen	PALACE	Full-day historical Normandy excursions
`MSM`	Mont Saint-Michel Abbey & Bay	PALACE	Long-distance scenic chauffeur tours
`LOI`	Loire Valley Châteaux & Amboise	PALACE	Chambord, Chenonceau & Amboise castles

Vehicle Tiers & Capacity Specifications

Tier Identifier	Vehicle Class	Max Passengers	Luggage	Features
`SEDAN`	Berline Sedan (VW Passat, Peugeot 508)	1 - 3 Pax	3 Suitcases	Free Child Seats, Bottled Water, Wi-Fi
`ECONOMY_VAN`	Economy Minivan (Mercedes Vito, Trafic)	1 - 8 Pax	8 Suitcases	High Luggage Capacity, Disney Families
`BUSINESS_VAN`	VIP Business Van (Mercedes V-Class)	1 - 7 Pax	7 Suitcases	Luxury Leather Seating, Conference Setup
`MINIBUS`	Executive Minibus (Mercedes Sprinter)	1 - 16 Pax	16 Suitcases	Group Tours, Wedding & Event Delegations

2. B2B Partner Endpoints Reference

Endpoint 1: Fetch Live Locations, Routes & Prices

`GET` `https://francegotransfers.io/api/v1/partner/routes`

Returns the real-time catalog of all active hub categories, pickup/dropoff locations, and official route pricing directly from the PostgreSQL database.

Request Headers

```
X-API-Key: your_b2b_secret_partner_key_2026
```

Response Example (`200 OK`)

```
{
  "success": true,
  "updatedAt": "2026-10-28T10:20:17.929Z",
  "categories": [
    { "key": "AIRPORT", "name": "Paris Airports", "sortOrder": 1 },
    { "key": "AMUSEMENT_PARK", "name": "Euro Disney & Theme Parks", "sortOrder": 2 },
    { "key": "CITY_CENTER", "name": "Paris City & Hotels", "sortOrder": 3 }
  ],
  "locations": [
    { "id": "loc_cdg", "shortCode": "CDG", "name": "Paris Charles de Gaulle Airport (CDG)", "categor
    { "id": "loc_dlp", "shortCode": "DLP", "name": "Disneyland Paris Hotels & Parks", "category": "A
  ],
  "routes": [
    {
      "id": "route_cdg_dlp",
      "slug": "cdg-to-disneyland-paris",
      "originCode": "CDG",
      "originName": "Paris Charles de Gaulle Airport (CDG)",
      "destinationCode": "DLP",
      "destinationName": "Disneyland Paris Hotels & Parks",
      "distanceKm": 45,
      "estDurationMinutes": 45,
      "pricingEur": {
        "SEDAN": 70,
        "ECONOMY_VAN": 90,
        "BUSINESS_VAN": 120,
        "MINIBUS": 180
      }
    }
  ]
}
```

Endpoint 2: Create B2B Partner Booking

POST `https://francegotransfers.io/api/v1/partner/bookings`

Transmits a validated reservation to FranceGo. Stores the record in PostgreSQL, generates a unique booking reference (e.g. `FGO-B2B-274345`), dispatches dual HTML confirmation receipts, and alerts the chauffeur dispatch team.

Request Headers

```
Content-Type: application/json
X-API-Key: your_b2b_secret_partner_key_2026
```

Request Body Parameters

Parameter	Type	Required	Description
`originCode`	String	Yes	Pickup location short code (e.g. `CDG`, `ORY`, `PAR`).
`destinationCode`	String	Yes	Dropoff location short code (e.g. `DLP`, `VERS`).
`pickupAddress`	String	Yes	Exact terminal, hotel name, or street address.
`dropoffAddress`	String	Yes	Exact destination address or hotel name.
`pickupDateTime`	ISO 8601	Yes	Pickup date & time in UTC (e.g. `2026-11-15T10:30:00Z`).
`returnDateTime`	ISO 8601	No	Optional return date & time for two-way round-trip transfers.
`vehicleTier`	String	Yes	One of: `SEDAN`, `ECONOMY_VAN`, `BUSINESS_VAN`, `MINIBUS`.
`passengers`	Integer	Yes	Number of passengers (1 to 16).
`luggageCount`	Integer	Yes	Number of standard suitcases.
`babySeats`	Integer	No	Number of complimentary infant seats requested (0 to 4).
`boosterSeats`	Integer	No	Number of complimentary booster seats requested (0 to 4).
`flightNumber`	String	No	Flight or Eurostar train number for live delay tracking.
`customerName`	String	Yes	Full passenger name for chauffeur welcome tablet.
`customerEmail`	String	Yes	Passenger email address for automated voucher delivery.
`customerPhone`	String	Yes	International mobile phone number with country code.
`notes`	String	No	Special requirements (e.g. "VIP Meet & Greet", "Terminal 2E").
`partnerReference`	String	No	Your internal booking ID or OTA reservation reference.

Sample JSON Request

```
{
  "originCode": "CDG",
  "destinationCode": "DLP",
  "pickupAddress": "CDG Airport Terminal 2E, Flight AF1234",
  "dropoffAddress": "Disneyland Newport Bay Club, Marne-la-Vallee",
  "pickupDateTime": "2026-11-15T10:30:00Z",
  "vehicleTier": "ECONOMY_VAN",
  "passengers": 4,
  "luggageCount": 4,
  "babySeats": 1,
  "boosterSeats": 0,
  "flightNumber": "AF1234",
  "customerName": "Jean-Luc Picard",
  "customerEmail": "api.test@francegotransfers.io",
  "customerPhone": "+33612345678",
  "notes": "VIP Meet & Greet at baggage carousel exit",
  "partnerReference": "AGY-API-TEST-001"
}
```

Response (`201 Created`)

```
{
  "success": true,
  "message": "Partner booking created and confirmation emails dispatched.",
  "bookingRef": "FGO-B2B-274345",
  "status": "PENDING",
  "totalFareEur": 90,
  "partnerReference": "AGY-API-TEST-001",
  "route": "Paris Charles de Gaulle Airport (CDG) → Disneyland Paris Hotels & Parks (DLP)",
  "pickupDateTime": "2026-11-15T10:30:00.000Z",
  "adminPanelUrl": "/ffs-portal-sec-99x/bookings"
}
```

Endpoint 3: Poll Booking Status & Chauffeur Tracking

`GET` `https://francegotransfers.io/api/v1/partner/bookings/{bookingRef}`

Polls live reservation status and assigned chauffeur dispatch notes from the database.

Request Headers

```
X-API-Key: your_b2b_secret_partner_key_2026
```

Response (`200 OK`)

```
{
  "success": true,
  "bookingRef": "FGO-B2B-274345",
  "status": "PENDING",
  "customerName": "Jean-Luc Picard",
  "customerEmail": "api.test@francegotransfers.io",
  "customerPhone": "+33612345678",
  "origin": {
    "name": "Paris Charles de Gaulle Airport (CDG)",
    "shortCode": "CDG"
  },
  "destination": {
    "name": "Disneyland Paris Hotels & Parks",
    "shortCode": "DLP"
  },
  "pickupAddress": "CDG Airport Terminal 2E, Flight AF1234",
  "dropoffAddress": "Disneyland Newport Bay Club, Marne-la-Vallee",
  "pickupDateTime": "2026-11-15T10:30:00.000Z",
  "vehicleTier": "ECONOMY_VAN",
  "passengers": 4,
  "totalFareEur": 90,
  "flightOrTrainNumber": "AF1234",
  "notes": "[B2B Partner Booking | Ref: AGY-API-TEST-001] VIP Meet & Greet at baggage carousel exit"
  "createdAt": "2026-10-28T10:20:50.806Z",
  "updatedAt": "2026-10-28T10:20:50.806Z"
}
```

3. Multi-Language Code Integration Snippets

A. JavaScript / TypeScript (Node.js & Front-End)

```
async function createTransferBooking() {
  const url = "https://francegotransfers.io/api/v1/partner/bookings";
  const apiKey = "your_b2b_secret_partner_key_2026";

  const payload = {
    originCode: "CDG",
    destinationCode: "DLP",
    pickupAddress: "CDG Terminal 2E Arrival Gate",
    dropoffAddress: "Disneyland Hotel, Marne-la-Vallee",
    pickupDateTime: "2026-11-20T12:00:00Z",
    vehicleTier: "BUSINESS_VAN",
    passengers: 4,
    luggageCount: 4,
    babySeats: 1,
    flightNumber: "AF1234",
    customerName: "Robert Vance",
    customerEmail: "vance@agency.com",
    customerPhone: "+33612345678",
    partnerReference: "REF-2026-VANCE"
  };

  const response = await fetch(url, {
    method: "POST",
    headers: {
      "Content-Type": "application/json",
      "X-API-Key": apiKey
    },
    body: JSON.stringify(payload)
  });

  const data = await response.json();
  if (response.ok) {
    console.log("Confirmed Booking Ref:", data.bookingRef);
    console.log("Total Fare:", data.totalFareEur, "EUR");
  } else {
    console.error("Booking failed:", data.error);
  }
}
```

B. Python Integration (3.8+)

```
import requests

url = "https://francegotransfers.io/api/v1/partner/bookings"
headers = {
    "Content-Type": "application/json",
    "X-API-Key": "your_b2b_secret_partner_key_2026"
}

payload = {
    "originCode": "ORY",
    "destinationCode": "PAR",
    "pickupAddress": "Orly Airport Terminal 4",
    "dropoffAddress": "Hotel Plaza Athenee, 25 Avenue Montaigne",
    "pickupDateTime": "2026-11-22T14:30:00Z",
    "vehicleTier": "SEDAN",
    "passengers": 2,
    "luggageCount": 2,
    "flightNumber": "TO3410",
    "customerName": "Eleanor Rigby",
    "customerEmail": "eleanor@vip-tours.co.uk",
    "customerPhone": "+447911223344",
    "partnerReference": "UK-RIGBY-001"
}

response = requests.post(url, json=payload, headers=headers)
if response.status_code == 201:
    res = response.json()
    print(f"Booking Created: {res['bookingRef']} (Total: {res['totalFareEur']} EUR)")
else:
    print(f"Error ({response.status_code}): {response.text}")
```

C. cURL Quick Test Command

```
curl -X POST "https://francegotransfers.io/api/v1/partner/bookings" \
     -H "Content-Type: application/json" \
     -H "X-API-Key: your_b2b_secret_partner_key_2026" \
     -d '{
       "originCode": "CDG",
       "destinationCode": "DLP",
       "pickupAddress": "CDG Terminal 2E",
       "dropoffAddress": "Disney Newport Bay Club",
       "pickupDateTime": "2026-11-15T10:30:00Z",
       "vehicleTier": "ECONOMY_VAN",
       "passengers": 4,
       "luggageCount": 4,
       "customerName": "Test Passenger",
       "customerEmail": "test@partner.com",
       "customerPhone": "+33612345678"
     }'
```
